FRESH FRUITS

FRESH FRUITS MANGOES

ALPHONSO MANGOES

Why Indian Alphonso Mango?

India ranks First in the world for the mango production which accounts for 56% of the world's mango production known as "King of fruits". Alphonso Mango sourced from premium Maharashtra farms & Karnataka farms, Alphonso mangoes are a delight for senses. Grown mainly in western India, Alphonso is available March to the end of July. Alphonso mangoes have a creamy, tender texture and contains a delicate, non-fibrous, juicy pulp. The skin of a fully ripe Alphonso mango turns bright golden-yellow with a tinge of red which spreads across the top of the fruit. The flesh has a stark saffron-colored hue. This fruity gem is very sought-after owing to its unique flavor, fragrance, color and texture.

FRESH FRUITS MANGOES

KESAR MANGOES

India ranks First in the world for the mango production which accounts for 56% of the world's mango production. Kesar Mango sourced from the state of Gujarat & Maharashtra in western India, Kesar mangoes swank a burnishing bright-yellow pulp. This mango cultivar is so popular that it has a geographical indication (GI) of its own, patenting to its uniqueness and specific geographical origin. The nomenclature, Kesar, boats regality as it was accorded by the Nawab of Junagadh in 1934. Kesar mangoes are cultivated from April to June and is among the most prized varieties of mangoes. The fruit has smooth-textured yellowish-green skin with non-fibrous pulp, mainly used for extracting juice and other assorted liquid-based products.
